### INTRODUCTION

This guide focuses on selected sources that describe, illustrate, or document Wright's contributions to Buffalo architecture—the built projects, the never-built projects, and projects undertaken after his death. It is not a comprehensive list of the extensive Wright-related materials in the Library's collection. Biographical material on Wright has been omitted and can be found in the Humanities & Social Sciences (HSS) department.

Most of the items listed here are found in the Grosvenor Room (GRO). Material in the Grosvenor Room must be used on the premises and cannot be borrowed. For books that can be borrowed, visit Humanities and Social Sciences. Shelf locations are subject to change at any time.
