https://youtu.be/7DPnBG3yNQU (Masters Edition)

(All of the different editions have the same playing structure. There is a change in categories and in the Family Edition there are adult cards and children's cards).

Number of Players: 2-4 (Best 4) Ages: Adult Play Time: 60 minutes **Trivial Pursuit Book Lovers Edition Description**: Trivial Pursuit with a book theme. Categories are:

Children's, Classics, Non-Fiction, Book Club, Authors, and Book Bag.

Trivia Pursuit Description: Each player has a circular playing piece with six pie-shaped holes. The goal of the game is to collect a pie in each color. The colors correspond to different question categories.

The board consists of a circular track with spaces in seven different colors. Six of the colors correspond to question categories while the last color gives a new dice roll. Six spaces along the track are "pie spaces", and from these there are "spokes" of track leading to the middle of the board.

Players roll a die and move along the track in any direction they like. When a player stops on a color they get a question of the appropriate category. If the player answers a question correctly while on a pie space, they get a pie of that color (assuming they don't already have it). A correct answer on another square allows the player to roll again.

Once the player has one pie in each color, she can move along the spokes to the middle of the board to win the game.
