A Major Breakthrough!

# SUPERCHESS®

"Fun for the Beginner, Challenging for the Master"™

- For all ages and abilities
- Pieces move like standard chess
- Play independently or with partners
- Partner play requires teamwork
- A game of unlimited possibilities: Numerous variations and alternative opening arrays
- Players must rely on their own instincts rather than memorized openings
- Starts out as 4 "regional conflicts," evolves into "global war" (i.e., whole game board is used)
- Quick and easy to learn

**For 2, 3 or 4 Players!**

Chess has been the world's most popular board game for over 1,200 years. In all this time, there has never been a good version of multiple-player chess — until now! **Superchess** represents a major breakthrough! The problems associated with other forms of 4-way chess have been solved as a result of the unique board design which allows the opposing forces to play each other head to head!

The light-colored forces (white and tan) play against the dark-colored forces (brown and black). Partners sit across from one another. The first side to checkmate both opposing kings wins the game.

**Superchess** was developed over the past several years by Seattle resident Rolf Jacobson. After experimenting with over a dozen game-board designs and thoroughly testing the game, Mr. Jacobson has finally introduced **Superchess** to the general public!

**Superchess:** "Superchess represents a major breakthrough in four-way chess. The problems associated with other forms of four-way chess have been solved as a result of the unique board design. For instance, difficulties with pawn promotion, colliding pawns, and board congestion have been eliminated. **Superchess** is how four-way chess was meant to be played."
