

Xoom Cubes Game Rules

What is Xoom Cubes?

XOOM CUBES is a thousand word games in one! Never-ending challenges stacked upon never-ending fun stacked upon never-ending challenges. (It's a vicious cycle.) You can play by our rules or create your own. You never liked rules much anyways, did you?

We'll provide you with the basics, and even a few challenges to get you started, and you can take it from there!

Claim your color quickly!

- Each player chooses a different color of dice.
- The shortest player in the game will initiate each challenge by shouting "XOOM!"
- The first player to complete the challenge and grab the flag wins the round!

Time is of the essence! (Game Type #4)

- You're racing against your friends to prove your spelling superiority.
- In some challenges a timer is in play to amp up the pressure.
- You only have 10 rounds to XOOM to glory.

Types of Play:

1) Letter Races

Letter Races are challenges where players must spell a word/words using a specific number of letters or cubes.

For example:

- Spell a five-letter word
- Spell your favorite color
- Spell a seven-letter word

2) Potluck

And now we've gone colorblind! Potluck Challenges disregard your color set entirely! At the "XOOM!" players toss all dice into the center, but don't admire the clashing of the rainbow alphabet too long, the object is to pull out as many words as possible, using any letter on the table.

3) Category Race

Spell words from specific categories like:

- Holidays
- Sports
- Celebrity Name

- Months
- Animals
- Movie Titles

4) Timed Games

Set the clock! You have 30 seconds to spell as many words as you possibly can. If a player uses all his/her dice before the clock runs out, they can snatch the flag to end time early!
