BOARD OF TRUSTEES BUFFALO & ERIE COUNTY PUBLIC LIBRARY MEETING DATE: 3/16/2006

AGENDA ITEM NUMBER: E.2.d. Budget & Finance Committee

Preliminary Financials for the Month Ending

12/31/2005 Updated as of 3/9/2006

BACKGROUND:

The attached reports provide a summary of revenues and expenditures in the Library's Operating and Erie County Capital for Library Budgets for the year as of December 31, 2005 preliminary month-end close. These results are preliminary and subject to revision as the year-end process and audit proceeds. Despite what is likely the most challenging fiscal situation in the library's history the Library, overall, operated within its budget for the period. Changes from memo provided for the 2/16/2005 meeting are highlighted in yellow.

Items of note include:

- ✓ Erie County Capital Budget's \$5 million commitment for library materials was never fulfilled. The Board's passage of Resolution 2005-33, directing fourth quarter operating budget reductions to transfer \$1 million to the library materials budget, has allowed limited ordering of new books and other library materials to occur in the last half of the year.
- ✓ The system achieved the personnel reduction targets, with net SAP based personnel services (salaries and wages) ending the year at \$12,173,488. While this is nominally \$32,237 and 0.27% above budget, the actual cost is below budget as the Orchard Park Public Library joined the Centralized Human Resources (CHR) program in the Fall and the last quarter's contract payment did not need to be disbursed. Factoring in this \$60,656 un-disbursed payment reduced the net SAP based personnel services to \$28,419 and 0.23% below budget.
- Health Insurance for active employees and retiree health insurance expenditures were particularly impacted by the library's downsizing. The need to partially offset the \$5 million loss of library materials essentially resulted in downsizing that would have occurred in early 2006 (to address 2006's \$7 million reduction in county support vs 2004) being advanced well into 2005 (starting early in the year for personnel who would normally had been processing new book purchases).
 - The budget turmoil/uncertainty contributed to an increased number of retirements in late 2004 continuing into 2005 and hence retirees drawing on the retiree health benefit. This combined with higher than anticipated rate increase for the retiree group, resulted in 2005 expenses for retiree medical of \$738,786 742,095, well above the 2005 budget of \$437,110. Additionally, \$98,755 in charges for service in 2004 that were not allocated by the county in time for the 2004 year end closing were booked to 2005 increasing the total charge to \$837,541 840,672. This contributed to active employee health insurance expenses being \$223,061 under budget.
- ✓ **Unemployment and Workers' Compensation Insurance costs** are charged on an "estimated" basis using countywide percentages. The library's normal operations generate a lower than average risk of injury and experiences minimal unemployment claims, hence adjustments are usually substantial credits. **However, the restructuring/downsizing required to address the \$5** million loss of 2005 County support for library materials contributed to expenses in both

accounts being well above prior year norms. Staff had previously estimated that the layoffs experienced to date created an unemployment insurance exposure in excess of \$300,000. Providing notice well in advance and intense efforts to assist employees find alternate employment helped to mitigate the final 2005 expense which came in at \$281,326 (compared to only \$10,511 charged in 2004). Workers' Compensation expenses, ending the year at \$123,857, also were significantly higher than 2004's \$29,952.

- ✓ Taken as a whole, the fringe benefit accounts ended the year under budget by $$99,857 \over 1.58\%$.
- ✓ **Hurricanes Katrina and Rita's upward pressure on energy prices** had abated a bit, however the recent prolonged bout of well below average temperatures in December reversed this trend. Steps initiated at the beginning of the heating season to further reduce energy use helped to limit Natural Gas expense system-wide to \$362,552 which was \$52,789 above budget. However, this was offset by fuel oil and electricity expenditures being under budget a collective \$67,409 60,228.
- ✓ A total of \$656,705 in redirected operating funds were expended for library materials in 2005. This leaves \$555,485 remaining to cover orders "in the pipeline" and set aside approximately \$250,000 for a major system-wide periodicals order due early in 2006 (the order, paid in early February ended up being \$243,695, more than \$100,000 below the \$354,301 paid in February 2005) allowing more of the limited 2006 materials budget to be applied to book purchases. Barring any major changes in as year-end closing continues, this amount will be brought forward with a recommendation for re-appropriation into the 2006 library materials budget at a board meeting in the near future.

ACTION REQUIRED: None – Informational Report
