

**Questions for:  
Request for Proposals No. 2024-043VF  
Telecommunications Wide Area Network  
November 18, 2024**

Question: To clarify – you are looking for a completely vendor managed network for their WAN, meaning the vendor would own the WAN circuits as well as the equipment?

Answer: Per the RFP we are looking for point to point connectivity between locations of lit fiber, each terminating at our Central Library. We would not own the fiber nor likely the equipment to light it, but would pay on a monthly basis.

Question: Is there a cost estimate, budget or ballpark figure for the project listed? Is there an actual start date for the project?

Answer: Cost/price is for vendors to tell us. Go Live date is contained in the RFP.
