Where Else Can I Find Censuses for New York State?	20

INTRODUCTION

Censuses are often called the backbone of American genealogy. They are one of the most essential sources for establishing family relationships within a given household. They are also used by historians to study people and conditions in a particular time and place.

The Grosvenor Room has all surviving Erie County census records on microfilm. For some years, we have surrounding counties as well. The Western New York Genealogical Society (WNYGS) has made it a priority to purchase surrounding counties in Western New York so that there is full census coverage for the region. You may help yourself to microfilm in GRO or ask our staff to help you find the roll you need.

Just about every Federal census is indexed, either in printed volumes or through our subscription databases. However, the censuses performed by New York State are almost completely unindexed. The 19th century New York State censuses also contain no street names or house numbers, which makes them challenging to use.

This guide shows what the Grosvenor Room has on film and in print; what WNYGS has (all of which is conveniently shelved in the Grosvenor Room); what is searchable through our subscription databases, *AncestryLibrary* and *Heritage Quest*; and what is free on the internet.

We have a small number of census indexes for states other than New York. These can be found by searching WEB2 on *census* and the name of the state.

We also have a collection of Buffalo ward maps, which are needed to narrow down which film to pull when using an unindexed census for the city of Buffalo.

To find nongenealogical (statistical, demographic, economic) census information, visit our Business, Science and Technology department.

COLONIAL-ERA CENSUSES

Surviving colonial censuses were taken in Eastern New York State but not on any comprehensive basis.

	What does B&ECPL have on film?	None
	What does B&ECPL have in print?	GRO Reference Desk *F118 .E23 1989 v.1 Jackson, Ronald Vern, ed. Early Census Index: New York Early Census South Jordan, UT: Genealogical Services, Inc., 2003, ©1989

WEB2: THE ONLINE CATALOG OF THE BUFFALO & ERIE COUNTY PUBLIC LIBRARY

<http://web2.buffalolib.org/>

WEB2 is a database showing the books, magazines, CDs, videos, maps, and manuscripts owned by the Buffalo and Erie County Public Library. It includes the Grosvenor Room, all departments in the Central Library, and every town and branch library. Anyone may access it for free on the internet at the address above.

To find additional census-related items in our collection beyond those listed in this guide, try these Subject searches. B&ECPL has many publications that give demographic and economic statistics from the census instead of personal names.
