

City of Buffalo Birth Records

How to use this spreadsheet: This index compiles transcribed records from the City of Buffalo Birth Records microfilm.

Transcriptions are based on transcriber's best judgement and were transcribed as written. Underlined characters were difficult to read. Question mark were used in place of unreadable characters. Buffalo city directories and census records were cross referenced for hard to read records and the findings can be found in the notes field. The original frame (individual microfilm slide) can be found on the accompanying digital collection. Frames can be located by identifying which date range the entry falls into, and using the corresponding frame number to identify the frame in the digital collection.

Example: Entry on Microfilm Roll #1, Frame #63 = Item in the digital collection entitled "City of Buffalo birth records: Dec. 12, 1850 - Aug. 31, 1878 [frame 63]"

Microfilm Reel Date Range: Roll 1: December 12, 1850 to August 31, 1878 (few records before 1878) Roll 2: September 1, 1878 to July 4, 1879 Roll 3: July 1, 1879 to March 6, 1881 (no records for 1880) Roll 4: March 7, 1881 to September 16, 1881				Link to the digital coll http://digital.buffalolib.org/collections/show/28
