There is serious consideration given to revising the current contracts between the System and the contracting libraries. ACT Contract Revision Committee will suggest changes to the current contract, then discuss and negotiate a revised contract with Central. Representatives from all contracting libraries is desirable.

Conversation with Town of Aurora officials indicate there will be no matching funds available for new windows in ATPL while the expense of the new Town of Aurora office building is being constructed. ATPL will ensure that the project continues on the list both for Central and the Town of Aurora.
