Effective Communication Strategies
A free education program of the Alzheimer's Association® WNY

Communication is more than just talking and listening – it's also about sending and receiving messages through attitude, tone of voice, facial expressions and body language. As people with Alzheimer's disease and other dementias progress in their journey and the ability to use words is lost, families need new ways to connect. Join us to explore how communication takes place when someone has Alzheimer's, learn to decode the verbal and behavioral messages delivered by someone with dementia, and identify strategies to help you connect and communicate at each stage of the disease.

Monday, March 16| 2:30 p.m.
Eden Library
2901 E Church St. | Eden

Additional information available by calling 1.800.272.3900.

This program is funded in part by a grant from the New York State Department of Health.
