**The Padawan's arms flex and lift,  
Flex and lift, flex and lift,  
The Padawan's arms flex and lift, through the galaxy.**

**...The Padawan's legs run very fast...  
...The Padawan jumps up super high...  
...The Padawan flies zoom zoom zoom...**

**Padawan, Padawan turn around  
Padawan, Padawan touch the ground  
Padawan, Padawan take out your lightsaber  
Padawan, Padawan yell out your color!  
Padawan, Padawan, jump up high  
Padawan, Padawan, fly, fly, fly  
Padawan, Padawan, turn around.  
Padawan, Padawan, please sit down.**

**The X-wing has great big wings (arms outstretched)  
Its jets spins around and sings (spin one arm)  
The X-wing goes up (lift arms)  
The X-wing does down (lower arms)  
The X-wing flies high (arms outstretched, spin)  
Over the galaxy! (fly around)**

**On Tatooine in daytime light  
(stretch arms out)  
We can see 2 suns shine bright  
(make circle with arms)  
We can see the dust clouds white  
Following speeders in their flight  
(zoom one hand through the air)  
In the sky in black of night  
(stretch arms out)  
We can see 3 moon's light  
(make circle with arms)  
We can see the stars in sight,  
Twinkling high with all their might.  
(wiggle fingers)**
