**Item #07: Construction Grants:** The replacement of the main condensing unit and coil is slated to begin on Monday July 23rd. In preparation of the absence of air conditioning for a possible 7 to 10 days, fans and portable air conditioning units to circulate the air will be in place around the library. The Board voted unanimously to close the library while this HVAC work is being completed. The next day after the Board meeting, Director Glenn Luba contacted the Board members. Individual phone calls out to Chairman, Mark Weber and Trustee Christine Cywinski, and a conference call between himself, Vice-Chairman, Judith Mietlicki, and Secretary-Treasurer, Angela Yates, to discuss closing the library during the construction time. Director, Glenn Luba has discussed in detail with the contractors the physical safety aspect of this project from the public/staff stand point. They all agree that there is no physical safety issue for people being in the library. The only variable that will have to be determined on an ongoing daily basis is internal comfort conditions. After discussions the Board members agreed unanimously to keep the library opened during this project as long as the weather conditions remain favorable. The conditions will be constantly monitored and staff will always have an option to leave if their personal comfort level is exceeded. If conditions reach a level of discomfort for the majority of staff, the library hours will be truncated accordingly that day.
