Take the Census! Event

Join us for this special event to get basic information on the census or take the census online on a safe and secure computer. Library representatives can help census takers use our laptop computers to get to the correct census survey web site and, if needed, help patrons who have little or no computer skills physically fill out the census online.

Please bring the letter you received from the Census Bureau that contains your CENSUS ID.

Library representatives will not interpret or answer any census survey related questions.

Thursday, April 23rd
11:00 AM – 2:00 PM

Lancaster Public Library
(716) 683-1120

No registration required. Free and open to the public ages 18 and up. For more computer training and other events visit www.BuffaloLib.org
