

# Heim Middle Library Summer Reads

There are no required books to read over the summer but explore the suggestions below of titles popular with Heim students, favorites of Mrs. Devaney, or brand new titles in need of student reviews.

*Remember - reading is the best way to prepare for the next school year!*

## Tried and True Popular Authors and Series

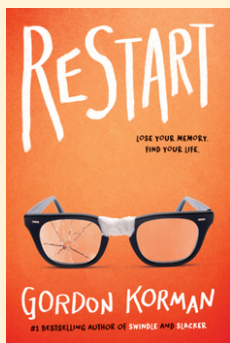

### Track series by Jason Reynolds

Realistic fiction. Quick reads with amazing characters.

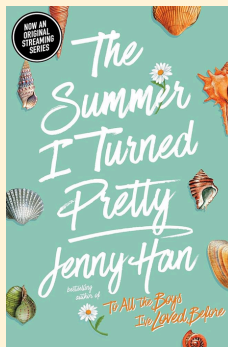

### Wings of Fire series by Tui T. Sutherland

These dragon based fantasy series books come in both chapter book and graphic novel formats.

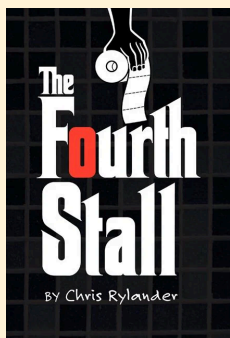

### Author Gordon Korman

Korman writes in a variety of genres but they are always great!

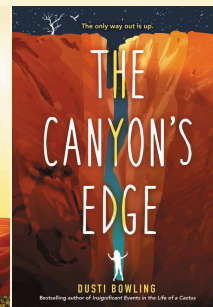

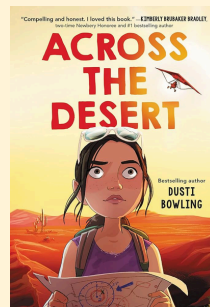

### Author Jenny Han

Han writes popular YA realistic fiction romance series.

### The Fourth Stall series by Chris Rylander

Do you need a laugh? If you love *Diary of a Wimpy Kid* but want something new, try *The Fourth Stall* series.

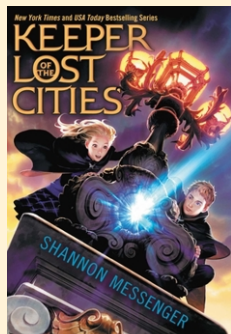

### Author Dusti Bowling

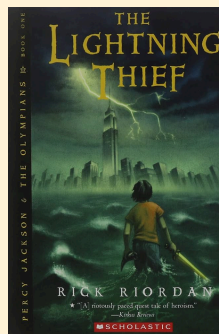

Bowling's realistic fiction novels are full of survival and adventure whether her characters are out in the wilderness or in middle school.... Look for a new Dusti Bowling book coming out in October!

### The Unwanteds series by Lisa M. Mann

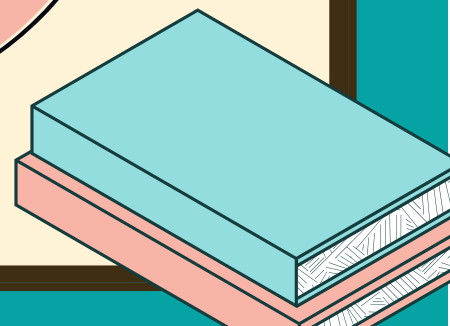

### The Keeper of Lost Cities by Shannon Messenger

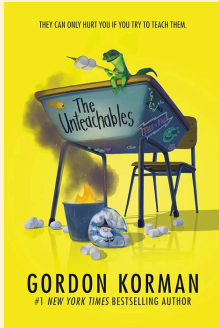

### Percy Jackson and the Olympians by Rick Riordan

**Popular high action fantasy series!**

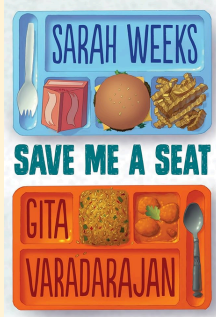

## Some of Mrs. Devaney's Favorites

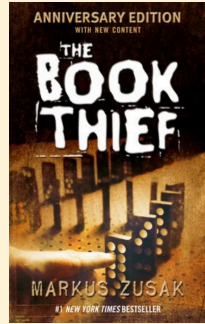

If you read any of these over the summer, share your thoughts with me in the fall!

I love Gordon Korman books! This one is funny, wild and heartwarming all at the same time.

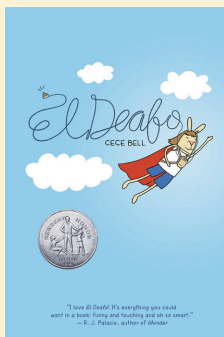

Multiple perspectives, real life issues and the power of friendship.

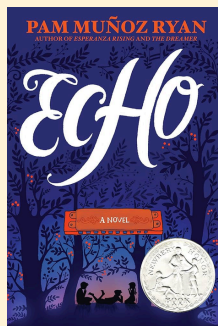

Historical fantasy fiction that grabs your heart and makes you hold your breath in suspense!

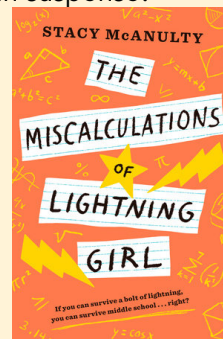

This is the first book in an exciting sci-fi series. Read for imaginative characters and a good adventure.

I love a good graphic novel! This one is a great mix of true memoir and fun illustrations

A historical fiction book that weaves different stories into a creative and emotional conclusion. Read this if you love music!

Do you love math? This realistic fiction book might be perfect for you! (No actual math required.)

## New Books to Review

These are new books that we need student opinions on! If you read them over the summer, let us know what kind of readers would like them.
