Sometimes the villains
pretend they're heroes

How can you ensure that the people claiming to protect you from computer viruses and malware aren't scammers? Learn how to spot the warning signs.

Learn: Join us for a 60-90 minute interactive, educational session and learn the tricks scammers use and how to protect yourself and your friends.

Participate: We are seeking 10-15 people who are willing to stay after the session and provide feedback and suggestions for improving the module.
